# PERMANENT SIGN
## ORDINANCE APPLICATION REQUIREMENTS

### Site Plan:
Scale must be either 1/16"=1' or 1"=20'
Site plan must show:
- Location of proposed sign(s)
- All buildings and structures with dimensions
- All property lines, driveway locations and easement locations with dimensions, show location of any driveways or existing ground signs on adjacent property

### Elevation:
- Show a representation of the entire side of the building or lease space if it is a wall or awning sign. A digital photo is recommended. Provide length and height of sign and length and height of wall (do not count roof structure as wall area)
- Provide an accurate graphic of what the final sign will look like
- Elevations must also be submitted for ground signs, which shall indicate overall dimensions of the sign

### Face Change to Existing Sign:
If the work indicated does not alter the base structure and merely involves repainting or sliding out of plastic panels, then an architect or engineer seal is NOT required on the submitted plans.

### Attachment Detail for New Wall or Awning Sign:

*Shall be signed and sealed by a licensed Michigan design professional (registered engineer or architect).* This is required for all interior mall signs and permanent outdoor wall and awning signs of any size which are mounted over doorways or a public way. The seal requirement may be waived at the discretion of the Building Official with regard to interior mall signs or outdoor wall signs, which consist of lightweight plastic or aluminum individual pin-mounted letters which the Building Official determines would not present apparent injury risk or hazard to the public.

Notice to sign erectors: We do not accept “generic” all-purpose attachment details for signs or awnings. The document submitted shall be site-specific to the particular job and shall identify the materials and conditions as existing in the field.

Upon sealing the attachment detail the following shall be addressed:
- Identify wall material and construction
- Provide dimensions and weight of proposed sign
- Identify applicable wind, snow and dead loads per current adopted Building Code
- Address shear strength of fasteners
- Address the potential for pull-out failure of the fastener and wall material
- Indicate total number, type, length, spacing, and diameter of fasteners
- Show code-compliant attachment to structural or load-bearing components*

*Note: Brick veneer is not a structural component

Sealed attachment details which do not satisfactorily address all the above items will be rejected.

### Foundation Detail for New Ground Sign:

*Shall be signed and sealed by a licensed Michigan design professional* when the sign area exceeds 20 square feet or if sign is located closer to a public right-of-way than the height of the sign above ground level, or when the weight of the sign exceeds 500 pounds.

Upon sealing the foundation detail, the following shall be addressed:
- Identify all structural components
- Identify applicable wind, snow and dead loads per the current adopted Building Code
- Indicate steel structure with proper attachment and embedment to foundations
- Indicate type of concrete, compressive strength, air entrainment, type of reinforcement
- Indicate attachment method (i.e. site weld, through-bolt) and address all potential stresses at point of attachment between sign board and pole.

Sealed foundation details which do not satisfactorily address all the above items will be rejected.

(continued on back)
### PERMANENT SIGN

**ORDINANCE APPLICATION REQUIREMENTS**

<table>
<thead>
<tr>
<th>Outdoor Wall Signs/Awning signs:</th>
<th>Outdoor Ground or Pole signs:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Size: total signage may cover up to 10% of the wall face of the building, or 10% of the wall face of tenant lease space</td>
<td>• Size: Plastic facing in electric signs cannot exceed 100 sq. ft.</td>
</tr>
<tr>
<td>• Signs cannot obstruct window or door openings</td>
<td>• Signs located within required building setback lines must measure min. 8’-6” above grade (see schedule 29.02 of the Dearborn Zoning Ordinance for required building setback distances)</td>
</tr>
<tr>
<td>• Signs may project from the building no more than 12” into or over public property</td>
<td>• Required minimum distance from property lines: 3’</td>
</tr>
<tr>
<td>• Wall signs cannot project more than 12” from the wall</td>
<td>• Required minimum distance from the next nearest ground sign as measured parallel to property lines: 20’</td>
</tr>
<tr>
<td>• Awnings may project into public right-of-way up to 2/3 the width of the sidewalk measured from the building</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Prohibited signs:</th>
<th>Interior Mall signs:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Roof signs- signs mounted on the roof or signs which extend over the roof</td>
<td>• Area of sign cannot exceed 20% of the lease space wall area</td>
</tr>
<tr>
<td>• Signs mounted on un-braced parapet walls</td>
<td>• Must comply with current adopted Building Code applicable sections</td>
</tr>
<tr>
<td>• Signs that extend above the wall coping</td>
<td></td>
</tr>
<tr>
<td>• Cloth, paper, poster board or other combustible materials</td>
<td>Requirements for all signs:</td>
</tr>
<tr>
<td>• Signs which flash are prohibited</td>
<td>• Wording must relate to the commercial activity conducted on the premises (must match the named occupant on the current Certificate of Occupancy).</td>
</tr>
<tr>
<td></td>
<td>• Plastic facing in electric signs cannot exceed 100 sq. ft.</td>
</tr>
</tbody>
</table>

**Design Review:**
- Special review by the Design Review Committee is required prior to permit approval only if your property is located within one of the two Downtown Business Districts. Consult zoning map for exact district boundaries.
- Note the appeal number and submit copy of approved plans and “Certificate of Approved Design” issued by the Design Review Committee with your permit application.

**Building Board of Appeals:**
- Requests for variances from the sign ordinance are routed to the Building Board of Appeals.
- If you have previously obtained a variance for your sign, provide the appeal number and submit copy of Building Board approved plans and with your permit application.

**Fees:**
- **Plan examination fee** is $50 per application for permanent signs.
- **Sign permit fee** is based on type of sign:
  - Wall signs: $25 for each sign
  - Ground, marquee & projecting signs: $60 for each sign structure
  - Interior mall signs: $25 each sign
  - Face changes: $25 for all related face changes per business, plus $15 plan fee.
- **Building permit fee** for the new structure or new awning which will receive signage is based on contract cost: $85 for cost up to $2000, plus $10 for each additional $1000 of construction cost above $2000.
- **Commercial Revised document fee** is based on a new fee schedule.

**Electrical Permit:**
- A separate electrical permit is required for all illuminated signs. The electrical permit must be obtained prior to the issuance of the sign permit.

**Sign Ordinance Online:**
This publication is for informational purposes only and is subject to change. For official ordinance text, consult the relevant City of Dearborn Code of Ordinance sections (Ch. 5 article XII), available from the City Clerk and also free online at [www.municode.com](http://www.municode.com).

# PERMANENT SIGN PERMIT APPLICATION

## PERMIT SITE ADDRESS: INCLUDE SUITE NUMBER

<table>
<thead>
<tr>
<th>ZIP CODE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

## 1. INSTRUCTIONS:
- ☑ Complete, accurate and legible information must be provided in every box: Write “N.A.” if question does not apply
- ☑ For multiple signs at a single site, submit an additional front page for each sign
- ☑ Submit (3) copies of complete construction documents which adequately describe the proposed work, including:
  - An accurate site plan showing location of sign(s) in relation to structures and property lines
  - Clear dimensioned elevations showing an accurate graphic representation and location of proposed sign(s)
  - Attachment and/or foundation details sealed* by licensed architect or engineer (required in most cases)
- ☑ It is the applicant’s responsibility to ensure that all required information is provided and that the work proposed herein complies with all building code and city ordinance requirements. Failure to do so will result in undue delay
- * Refer to attached information sheet for sealed plan requirements and an overview of ordinance requirements

## 2. NAMED OCCUPANT (as written on C of O):

<table>
<thead>
<tr>
<th>TYPE OF INSTALLATION (CHECK ONE)</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>☑ New Sign with New Structure</td>
<td></td>
</tr>
<tr>
<td>☑ Face Change to Existing Sign Structure</td>
<td></td>
</tr>
<tr>
<td>☑ Interior Mall Sign</td>
<td></td>
</tr>
</tbody>
</table>

## 3. NUMBER OF SIGN FACES:

<table>
<thead>
<tr>
<th>One</th>
<th>Two</th>
<th>More than two (specify):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>_______________</td>
</tr>
</tbody>
</table>

## 4. DIMENSIONS OF SIGN STRUCTURE

(for ground signs state: length x height of panel x overall height; for awnings state: structure length x height x projection; for wall signs state: length x height):

| ___________x___________x___________ |

## 5. AWNINGS ONLY: DIMENSION OF LETTERING AREA INCLUDING ANY GRAPHICS OR LOGO (length x height):

| ___________x___________ |

## 6. TYPE OF SIGN (CHECK ONE):

<table>
<thead>
<tr>
<th>Wall</th>
<th>Wall sign-projecting or “blade” type</th>
</tr>
</thead>
<tbody>
<tr>
<td>☑ Awning</td>
<td>Canopy with stanchions</td>
</tr>
<tr>
<td>☑ Ground sign (pole)</td>
<td>Ground sign (monument)</td>
</tr>
<tr>
<td>☑ Marquee</td>
<td>Other (specify): _______________</td>
</tr>
</tbody>
</table>

## 7. WORDING:

- [ ] Wall sign
- [ ] Awning
- [ ] Ground sign (pole)
- [ ] Marquee

## 8. NUMBER OF SIGN FACES:

<table>
<thead>
<tr>
<th>One</th>
<th>Two</th>
<th>More than two (specify):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>_______________</td>
</tr>
</tbody>
</table>

## 9. DIMENSIONS OF SIGN STRUCTURE

(for ground signs state: length x height of panel x overall height; for awnings state: structure length x height x projection; for wall signs state: length x height):

| ___________x___________x___________ |

## 10. AWNINGS ONLY: DIMENSION OF LETTERING AREA INCLUDING ANY GRAPHICS OR LOGO (length x height):

| ___________x___________ |

## 11. IF WORDING INCLUDES NON-ENGLISH SCRIPT, PROVIDE ENGLISH TRANSLATION HERE:

| _________________ |

## 12. DISTANCE FROM GRADE TO BOTTOM EDGE OF SIGN:

| _________________ |

## 13. MATERIAL OF SIGN BOX/STRUCTURE:

| _________________ |

## 14. MATERIAL OF SIGN FACE:

| _________________ |

## 15. TYPE OF ILLUMINATION:

<table>
<thead>
<tr>
<th>Internal*</th>
<th>External*</th>
<th>None</th>
</tr>
</thead>
</table>

* separate electrical permit will be required

## 16. UNDERWRITER’S LABORATORY LABEL NUMBER (Required for illuminated signs)

| _________________ |

## 17. ARCHITECT OR ENGINEER IN RESPONSIBLE CHARGE REQUIRED in most cases* if box 5 or box 7 was checked:

- Name __________________________ A/E
- Address __________________________
- Telephone _________________________
- Michigan license number ____________
- Expiration date ________________

* Refer to attached information sheet for sealed plan requirements

## 18. CONSTRUCTION COST REQUIRED in most cases* if box 5 or box 7 was checked. Attach copy of signed contract

| $ ________________ |

* contract should itemize cost of sign/awning

## 19. BUILDING BOARD OF APPEALS: If a variance has been granted pertaining to the work proposed, provide appeal number:

| ________________ |

* attach copy of Building Board approved plans.

## 20. DESIGN REVIEW: Only for properties located within the Downtown Business District (DBD). Provide the Design Review case number:

| ________________ |

* attach a copy of approved plans and “Certificate of Approved Design” issued by the Design Review Committee.
